* The OCF (Ongoing Charges Figure) is the total expenses paid by the fund (excluding bank overdraft interest), annualised, against its average net asset value. The OCF will fluctuate as the average net assets and costs change. The OCF is updated following the publication of accounts for the periods ending 30th June and 31st December.

> 7 Day Fund Liquidity is calculated based upon 30% of trailing 20 day average volume.

< Gross Yield reflects the historic dividend income received by the fund in the preceding 12 months before the deduction of all expenses including management fees. Net yield is Gross Yield less the deduction of all expenses including management fees i.e. Gross Yield less the OCF. In both cases we use T Class Shares as reference. Please note that rates would vary for I Class and R Class shares. Additional fund expenses will further reduce the yield received.

Investment objective of the SICAV

The investment objective of the Sub-fund is to achieve long term growth in value. The Sub-fund will invest in equities on a global basis. The Sub-fund's approach is to be a long-term investor in its chosen stocks. It will not adopt short-term trading strategies. The Sub-fund has stringent investment criteria which the Investment Manager adheres to in selecting securities for the Sub-fund's investment portfolio. These criteria aim to ensure that the Sub-fund invests in:

- ▶ high quality businesses that can sustain a high return on operating capital employed;
- ▶ businesses whose advantages are difficult to replicate;
- ▶ businesses which do not require significant leverage to generate returns;
- ▶ businesses with a high degree of certainty of growth from reinvestment of their cash flows at high rates of return;
- ▶ businesses that are resilient to change, particularly technological innovation; and/or
- ▶ businesses whose valuation is considered by the Investment Manager to be attractive.

It is envisaged that the investment portfolio of the Sub-fund will be concentrated, generally comprising between 20 and 30 stocks. The Sub-fund takes sustainability risk and ESG characteristics into account as part of its selection process. In that respect, the Sub-fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. For the assessment, areas like corporate strategy, corporate governance, transparency and the product and service range of a company are taken into account.

In addition to ESG criteria, other sustainability criteria are taken into account in the management of the Sub-fund such as the United Nations Principles for Responsible Investment. The Investment Manager's responsible investment approaches can be summarised as "considering ESG issues when building a portfolio." and takes into account the following areas – integration, screening and thematic, engagement and proxy voting.

In addition to ESG criteria, the Sub-fund will not invest in businesses which have substantial interests in any of the following sectors:

- ▶ Aerospace and Defence
- ▶ Brewers, Distillers and Vintners
- ▶ Casinos and Gaming
- ▶ Gas and Electric Utilities
- ▶ Metals and Mining
- ▶ Oil, Gas and Consumable Fuels
- ▶ Pornography
- ▶ Tobacco
